TARGET

Full Stack Developer

CAREER OBJECTIVE

Motivated Information Technology student seeking internship opportunities in Full Stack Development, Web Development, Software Engineering, RPA and Automation, or Cloud and DevOps. Eager to apply programming knowledge to real-world projects, learn from experienced professionals and contribute to practical software solutions.

EDUCATION

B.E. / B.Tech. - Information Technology

Mount Zion College of Engineering and Technology

Currently pursuing 3rd Year

TECHNICAL SKILLS

Programming

Python, Java, C, JavaScript

Web Development

HTML5, CSS3, JavaScript, Responsive Design, UI Development

Full Stack

REST API concepts, JSON, CRUD, backend fundamentals

Database

SQL, relational database concepts, CSV and data handling

RPA / Automation

UiPath, UI Automation, System Activities, Variables, Arguments, Triggers

Cloud / DevOps

Docker, Linux, VirtualBox, VMware, Hadoop, Google Cloud / App Engine concepts

Tools

Git, GitHub, VS Code, Browser Developer Tools, Linux Terminal

PROFESSIONAL SKILLS

- Problem solving, logical thinking and practical debugging.
- Fast learning and willingness to explore new technologies.
- Team collaboration, communication and responsible task ownership.
- Basic software development lifecycle and testing awareness.
- Attention to detail, adaptability and time management.
- Continuous self-improvement and willingness to accept feedback.

PROJECTS & PRACTICAL EXPERIENCE

Academic work and technical exposure

ACADEMIC / PRACTICAL PROJECTS

Personal Portfolio Website

Responsive portfolio using HTML, CSS and JavaScript with animations, project sections and contact details.

RPA Web Automation

UiPath workflows covering browser interaction, system activities, variables, arguments, triggers and automation logic.

Website Data Scraping & CSV

Extracted structured web information and practiced writing results into CSV format.

Docker & Container Labs

Worked with Docker installation, images, containers and basic container execution.

Virtual Machine & Cloud Labs

Practiced VirtualBox/VMware, Linux, Google App Engine concepts, Hadoop and CloudSim.

VM-to-VM File Transfer

Studied virtual networking and secure file-transfer procedures using Linux and SSH.

RPA / AUTOMATION EXPERIENCE

- Built workflows using UiPath activities, variables and arguments.
- Practiced browser and UI automation for controlled form interaction.
- Worked with system activities and trigger-based automation.
- Practiced web data extraction and structured CSV output.
- Applied basic error handling, testing and workflow troubleshooting.

CLOUD & VIRTUALIZATION EXPERIENCE

- Worked with virtual machines and Linux environments using virtualization software.
- Studied Google App Engine and simple cloud application deployment concepts.
- Practiced CloudSim cloud-scenario simulation and scheduling concepts.
- Studied Hadoop single-node setup and WordCount-style applications.
- Worked with Docker images, containers and basic container execution.

DEVELOPMENT STRENGTHS

- Responsive UI development and clean page structure.
- Programming with Python, Java, C, JavaScript and SQL.
- Workflow design, browser automation and data handling.
- Basic cloud, Linux, Docker and virtualization knowledge.
- Communication, teamwork, adaptability and time management.

INTERNSHIP PROFILE & CONTACT

Roles, hobbies, strengths and direct contact information

INTERNSHIP PROFILE

I am a 3rd-year Information Technology student developing practical skills in programming, web development, automation and cloud technologies. My goal is to grow into a Full Stack Developer through hands-on internships, real-world projects, mentorship and collaborative development environments.

CONTACT DETAILS

EMAIL	anbuselvam9911@mountzion.ac.in	DEPARTMENT	Information Technology
PHONE	+91 8098974281	COLLEGE	Mount Zion College of Engineering and Technology
CAREER TARGET	Full Stack Developer / Software Developer		

INTERNSHIP ROLES OF INTEREST

● Full Stack Developer Intern	Frontend, backend integration, databases, APIs and deployment.
● Web Developer Intern	Responsive interfaces, JavaScript, UI implementation and testing.
● Software Developer Intern	Programming, debugging, feature development and Git.
● Python / Java Intern	Application logic, APIs, backend and database connectivity.
● RPA / Automation Intern	UiPath, browser automation, workflow design and testing.
● Cloud / DevOps Intern	Docker, Linux, virtualization, cloud and deployment fundamentals.

HOBBIES & INTERESTS

- Building and experimenting with personal websites and coding projects.
- Exploring software tools, programming concepts and emerging technologies.
- Learning through tutorials, documentation and practical experimentation.
- Practicing programming and problem-solving challenges.
- Exploring UI design, animations and modern digital interfaces.

PERSONAL STRENGTHS

- Quick learner with curiosity toward new technologies.
- Responsible and consistent in completing technical tasks.
- Logical approach to identifying and fixing technical issues.
- Positive attitude toward feedback and continuous improvement.
- Able to collaborate effectively in team activities.

CAREER GOAL

To gain hands-on industry experience, strengthen my development skills, contribute to meaningful projects and build a successful career as a full-stack / software developer.
